Summary

Data-oriented Informatics Engineering graduate with experience in business intelligence, data analysis, and system implementation. Proven ability to analyze large-scale datasets, validate business metrics, and translate operational needs into data-driven solutions. Strong interest in data analytics, business intelligence, and decision support systems.

Experience

PT. Aplikasi Lintasarta (Lintasarta)

Feb 2026 – May 2026

Jakarta, Indonesia — Operation Support Engineer

- Processed and analyzed large-scale national network disruption data to uncover patterns and trends, supporting data-driven decisions in incident handling and prioritization.
- Developed a structured data interpretation framework to improve handling of mass and non-mass disruptions.
- Validated SLA and KPI performance metrics to ensure data accuracy, consistency, and alignment with operational targets.
- Supported Quality Assurance (QA) and User Acceptance Testing (UAT) by validating system outputs against business requirements and data expectations.
- Presented data analysis results and system insights to 4 major operational teams distributed across multiple regional branches (110+ members), enabling alignment and data-driven decision-making.
- Collaborated with cross-functional teams to translate operational workflows into data-driven system improvements.
- Contributed to system development initiatives, including user interface implementation and API integration.

PT. Aplikasi Lintasarta (Lintasarta)

Nov 2025 – Jan 2026

Jakarta, Indonesia — Network Operation Support Intern

- Assisted in designing a web-based system for network disruption handling to support operational workflows.
- Performed data validation on network disruption datasets to ensure data accuracy and consistency.
- Structured and prepared data requirements to support system development and implementation.
- Collaborated with team members to align system features with operational and business needs.

Laskar AI

Feb 2025 – Jun 2025

Jakarta, Indonesia — AI Engineer Cohort (Lintasarta x Dicoding x NVIDIA)

- Served as a Data Analyst in a capstone project focused on dental health issue detection.
- Conducted exploratory data analysis (EDA), data preprocessing, and feature engineering to support model development.
- Contributed to the development and evaluation of machine learning models for dental health issue classification.
- Developed a customer retention prediction model using XGBoost and Logistic Regression.
- Built an interactive Streamlit application for model inference and demonstration.

PT Ivonesia Solusi Data (Ivosights)

Sep 2024 – Dec 2024

Jakarta, Indonesia — Business Intelligence Intern

- Analyzed 2,000+ weekly records to evaluate business performance and identify revenue-related insights.
- Conducted market and competitor analysis covering 20+ competitors to support strategic decision-making.
- Developed dashboards using Looker and Excel for stakeholder reporting and data visualization.
- Evaluated CRM system requirements by comparing features across multiple platforms.
- Automated reporting and data workflows using Google Apps Script to improve efficiency.

High Performance Computing Laboratory, Gunadarma University *Mar 2023 – Jun 2023*

Depok, Jawa Barat — Assistant Lab (Data Science)

- Assisted students in Data Science and High-Performance Computing practicums.
- Provided technical guidance and troubleshooting support during lab sessions.
- Facilitated learning activities related to data processing, analysis, and computational techniques.

Education

Universitas Gunadarma

Sep 2021 – Sep 2025

Bachelor of Informatics — GPA: 3.89 / 4.00

Relevant Coursework: ERP Systems (Microsoft Dynamics NAV), SQL Server Intermediate

Thesis: Evaluation of Oversampling Techniques in Game Review Sentiment Analysis Using a Hybrid Sequential Deep Learning Approach

Organization

Society of Renewable Energy (SRE) Gunadarma

Jun 2022 – Jul 2022

Depok, Indonesia — Volunteer Staff (Remote)

- Assisted in sponsorship outreach efforts for an industrial visit program by communicating with potential corporate partners.
- Coordinated email-based partnership proposals and follow-up communications with external stakeholders.
- Supported event planning and administrative activities to ensure smooth program execution.

Gerakan Suka Baca (Minggu Cerdas)

Sep 2021 – Dec 2021

Jakarta, Indonesia — Creative Writer (Remote)

- Collaborated with team members to develop educational storytelling content focused on children's social and character development.
- Participated in content ideation and review sessions to ensure materials were engaging and age-appropriate for young learners.
- Provided voice-over narration for educational podcast content to support children's learning experiences.

Skills

Programming: Python, SQL, React, Flutter

Data & BI: Looker, Excel, Google Sheets, Grafana

ML & Analytics: XGBoost, Logistic Regression, Data Preprocessing, Feature Engineering

MLOps & Deployment: Docker, MLflow, DagsHub, Prometheus

Business Systems: Microsoft Dynamics NAV, Adempiere, Vtiger

Tools: Jira, Whimsical, Figma

Certifications

- Associate Data Scientist — BNSP (2025 – 2028)
- Agile Scrum Fundamentals (2025)
- Excel 2019 Associate (2024)
- Google UX Design Certification (2023)
